Attention: Mr. Sal Venticinqu

Dear Mr. Venticinqu:

Re: Small Mine Operation #U68-N90-06, LOB #41 Mine, S/018/025, C & R Minerals, Grand County, Utah.

Due to an ending of Agreement between C & R Minerals (operator) and Harold L. Bittle (claimant) on February 1, 1991 I am asking you to cancel C & R Minerals mining permit to mine LOB #41 as it is worthless for any other properties.

My attorney sent Iris Rounsaville and Ken Cooper dba C & R Minerals a letter dated March 20, 1991 giving them thirty days from that date to level, contour, re-seed and do all reclaiming of land per their agreement dated August 1, 1990. Also request for mining permit to BLM dated 7/16/90 and notice of intention to mine to State of Utah Department of Natural Resources dated 8/15/90 - both signed by Ken Cooper - partner of C & R Minerals - all of these documents state reclamation will be done by C & R Minerals.

To date I have heard nothing from either of the partners of C & R Minerals and would like to ask your assistance in having C & R Minerals (operator) get all of the reclamation done on LOB #41 where their mining operation took place.

C & R Minerals have not honored any of the Agreement signed and it did expire on February 1, 1991. I feel that if the reclamation issue is not pushed at this time C & R Minerals may just forget it. Just like the Milling Permit they put off putting in for. They have the attitude that they don't have to abide by any rules and regulations.

I am notifying Mr. Holland Shepherd of the State of Utah of this also - I will send a copy of this letter to him.

Thanking you in advance, I remain,

Very truly yours,

Harold L. Bittle
